

A REVOLUTIONARY WAY TO WATERPROOF BASEMENT FLOORS...

ABS THERMA-DRY FLOOR SYSTEM

Therma-Dry Floor is the answer...

ABS Therma-Dry floor tile is 100% waterproof.

It is only 9mm thick.

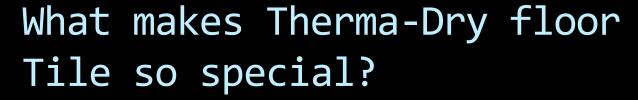

Requires no adhesives or cement

Has unique interlocking overlap system, so joints are always perfectly aligned and water tight.

Can be taken up and re-laid.

It has an industrial quality hard wearing surface with a choice of decorative finish

Therma-Dry floor Tile is laid directly onto the levelled basement floor

- no need for further preparation, no dust, mess or solvents or adhesives...
